Initial setup instructions

1. Connect to power. Ensure that all plugs are securely and completely inserted into receptacles.

2. Open the LCD cover. The Chromebook starts automatically.

3. Select language and keyboard, and set up network connection. Note: The network should have Internet connection and this step cannot be skipped.

4. Sign in with your Google Account.

Read and follow all safety precautions in the User Guide before continuing with your Chromebook computer. To view or download the User Guide, refer to “Electronic publications” later in this document.
