

NetBotz Camera Pod 165

Specifications Sheet

The NetBotz Camera Pod 165 is an IP-based, power-over-ethernet (POE) camera managed by a NetBotz Rack Monitor 750, either plugged directly into the rack monitor's private switch or discovered over the network. It provides exceptional image quality even in low-light environments with Day/Night ICR technologies, and features motion detection and small cube form factor. Coupled with the clip-capture and advanced alerting provided by the NetBotz Rack Monitor 750, the NetBotz Camera Pod 165 helps keep your IT environments in compliance and free of malicious or accidental access events.
