

SONY

WFXB700/B

Truly Wireless Headphones with EXTRA BASS™

Enjoy deep, punchy EXTRA BASS sound in a truly wireless headphone. The WF-XB700 truly wireless headphones keep you going with up to 18 hours of battery life plus quick charging.¹ The Ergonomic Tri-hold structure provides a secure fit, and the IPX4 design gives you long-lasting sound through rain and sweat.

Bullets

- Truly wireless design with BLUETOOTH wireless technology for total freedom.³
- EXTRA BASS for deep, punchy sound
- Up to 9hr battery life, total 18hr with charging case¹
- IPX4 water resistance against rain and sweat²
- Easy and clear hands-free calling
- Ergonomic design for a secure, comfortable fit
- Quickly access your smartphone's voice assistant with a quick touch⁴

Features

Truly wireless design

Just your music, with no wires to get in the way.

Bass that moves you

The WF-XB700 feature EXTRA BASS™ for seriously powerful, punchy low-end sound. Your favorite basslines never sounded so good.

Long battery life plus quick charging

The WF-XB700 headphones are built to outlast even your longest playlists. Get up to 9 hours of battery life on a single charge, and the charging case supplies another full charge, delivering a total of up to 18 hours of battery life. If you're low on power, 10 minutes of charge time gives you up to 60 minutes of playback¹.

Water resistant for everyday use

With an IPX4 rating, splashes and sweat won't stop these headphones – so you can keep on moving to the music.²

Easy hands-free calling

Conversation flows freely with easy hands-free calling, thanks to the built-in microphone. No need to even take your phone from your pocket.

SONY

A secure fit with Ergonomic Tri-hold structure

The WF-XB700 earbuds are ergonomically designed to contact three different points on your ear for a secure, comfortable fit.

Voice Assistant compatible

A simple button press connects you to your smartphone's voice assistant to get directions, play music, and communicate with contacts.⁴

Stable, reliable Bluetooth® connectivity

A Bluetooth chip that transmits sound to left and right ears simultaneously, coupled with optimized antenna design, ensures a stable connection and outstanding listening. Low audio latency makes for enjoyable video viewing too.³
