## Samsung account

Get the most out of your device by setting up your Samsung account.

You can sign in to an existing Samsung account, create an account, or sign up with an existing Google account.

Once your account is set up, you can

- Schedule repairs
- Back up your device
- Restore your device and more

## Switching made simple

Whether you are coming from an iOS or Android platform, you can easily transfer your data with Smart Switch.

### Back up your old device

Back up your old device using your favorite back-up app.

### Samsung Smart Switch

1. From your new Galaxy device, tap **Settings** > **Accounts and backup** > **Smart Switch**.
2. Tap **Receive data**.
3. Select your old device type.
4. Tap **Cable** (Android) or **Wireless** (Android and iOS) and follow the prompts to connect your devices.

## Essential apps

Google Duo

Simple, high quality video calling for smartphones, tablets, computers and smart displays.

Google Photos

Store and back up your photos and videos automatically to your Google Account with Google Photos™.

Google Drive

Store, share and access your files from any device.

### APPROVED FIRMWARE VERSIONS

This device will only operate with firmware versions that have been approved for use by your wireless carrier and the device manufacturer. If unauthorized firmware is placed on the device it will not function.

### INFORMATION ABOUT SAFEGUARDING HANDSETS

We encourage customers to take appropriate measures to secure their handsets and invites them to take advantage of the features available on this handset to help secure it from theft and/or other unauthorized access and use. This handset has a locking function (e.g., user-defined codes or patterns) that can serve as a first line of defense against unauthorized use or access to stored information. Pre-loaded security applications that allow customers to track or locate misplaced devices can be found on several devices. Lost or stolen devices should be immediately reported to your wireless carrier so that proper measures can be taken to protect accounts. For additional information, visit your wireless carrier's Privacy Policy.

**5G:** Devices operating on a nationwide 5G network currently use multiband dual connectivity; and receive service via both 4G LTE network and 5G network to support their connectivity. Dual connectivity could result in instances where the phone's network indicator shows "5G" in a 5G coverage area, but the device is connected to the 4G LTE.

Use only Samsung approved charging devices and accessories. If you use a screen protector, make sure it allows for use of all touch-screen features.
