March 2021
Mount your camera

We recommend that you use your Dual Charging Station to fully charge the camera battery before you mount the camera.

1. Place the wall plate with the arrow pointing up and secure it with screws.
   For drywall, use the provided wall anchors.

2. Insert your camera with its battery into the Anti-Theft Mount housing.

3. To attach the housing to the wall plate:
   Align the small screw in the housing with the dot on the wall plate.
   Turn the housing clockwise until it clicks into place.
   Use the security key to tighten the small screw.

4. Adjust your camera position, then finger-tighten the mount lock (clockwise) to lock the camera in this position.

Note: To release your camera from the housing, insert the security key into the security keyhole and turn the key clockwise.

Battery charging

You can use the Dual Charging Station to charge Arlo Pro 4, Ultra, Floodlight, and XL rechargeable batteries.

1. Connect the power adapter to the charging station.

2. Plug the power adapter into an indoor electrical outlet.

3. Insert one or two Arlo rechargeable batteries.
