

DVI to HDMI Video Adapter with USB Power and Audio - 1080p

StarTech ID: DVI2HD

This DVI to HDMI® adapter lets you connect your DVI laptop or desktop computer to an HDMI display or projector. The adapter works with any DVI output, but when you connect it to your Windows® computer, the adapter also supports native USB audio, allowing you to add your computer's audio to the HDMI output signal.

Hassle-free setup

The DVI to HDMI adapter is easy to use. The adapter features plug-and-play installation, so you won't need to load or download any special software, ensuring a fast and easy installation. The adapter also features a small footprint, ensuring it discreetly blends into your desktop setup, unlike bulky DVI adapter boxes that take up a lot of desk space.

If you want to transmit video only, you can just use the DVI connection. If you want to transmit audio as well as video, you can also plug in the USB connector. With no external power adapter needed, you have everything that you need in one compact solution.

Crystal-clear high-definition video

This adapter ensures that you're harnessing HD video quality from your DVI output, with support for resolutions up to 1080p.

The DVI2HD is backed by a StarTech.com 2-year warranty and free lifetime technical support.

Applications

- Make your legacy DVI device compatible with a new HDMI television or projector
- Connect a DVI computer to an HDMI display at your desktop or workstation
- Converter DVI to HDMI and add audio to the HDMI signal

Features

- Adds 2-channel stereo audio to your HDMI output with USB audio
- Hassle-free setup with plug-and-play installation
- Crystal-clear picture quality with support for HD resolutions up to 1080p
- Compact and USB powered for maximum portability
